

Minutes for CSC2058

Group 1 Date of this minute 11/11/2024 **Location (Room No. and/or Teams):** SU Building Big Room

The following team members were present (in the same meeting room or on Teams) when these minutes were discussed:

Name (printed/typed) In room (R); On teams (T). Signature (agreed bitmap or initials)

Ahmed		a
Ignacio	R	i
Htoo Myat Naing	R	h
Aleeya	T	a
Serafy	R	s
Sebastian	R	s

Task Reporting (Briefly list what each team member did in the last week/since the last meeting if < 1 week.*)

Name (1): Ahmed

-

Name (2): Ignacio

- Brought a digital design of what the board could look like.
- Brought his research on possible locations for the factory.
- Brought his research on possible partnerships in Makers Valley and points of interest such as hostels and parks.
- Determined the project should be scaled down due to problems with costs and funding issues.

Name (3): Htoo Myat Naing

- Highlighted some details on the benefits of scaling the project down.
- Discussed the effects of reducing the funding required for the project.
- Made changes to the AeroSync use case diagram.

Name (4): Aleeya

- Completed the use case description for trade player ellipse and claim task ellipse.

Name (5): Serafy

- Brought his research on potential investors and donors.
- Researched on the amounts of money this investors/ONGs typically give to projects like AeroSync.

Name (6): Sebastian

- Wrote use case descriptions for start task, pay and edit.

*Printouts giving an overview of interim deliverables may be added as a supplement to these minutes.

Actions Planned (Briefly list what each team member will do this week/until the next meeting if < 1week.)

Name (1): Ahmed

- Meet with everybody separately to reach a decision on the board.
- Design a full set of different tasks to be done under the different areas of preparation and organization before completing the objectives.

Name (2): Ignacio

- Design the last board for the demo.
- Design all 30 task cards with all the information to claim the task and how to reach the objective.

Name (3): Htoo Myat Naing

- Continue implementing the Use Case diagram and finalize the chart.
- Start thinking in the description of the ellipses for the delivery.

Name (4): Aleeya

- Adding the new features in the use case diagram (update resources, receive chance card)
- Fix the description for trade player and claim task ellipse.

Name (5): Serafy

- Work on the Class Diagram.

Name (6): Sebastian

- Write use case descriptions for update resources and edit Start task.

Obstacles (List briefly anything that may be blocking your progress and the possible solutions you need to investigate. Indicate 'O.K.' if there are no obstacles you are aware of.)

Name (1): Ahmed

- OK

Name (2): Ignacio

- Finish all Cards for Wednesday's advisory.

Name (3): Htoo Myat Naing

- OK

Name (4): Aleeya

- The overall plan might be too wide or expensive
- Need to start correlating the use case diagram with the class diagram.

Name (5): Serafy

- Study class diagram.

Name (6): Sebastian

- OK.

Date of next minutes meeting: 13/11/2024

Location of next minutes meeting: (Room No. and/or Teams): ____CSB 01/028____
